

Grass Roots Disciples is a four part learning opportunity, to help us explore the different ways in which Jesus encouraged us to follow him.

Grass Roots is based on these activities...

- a) Thinking and doing
- b) Discussing
- c) Seeing and hearing
- d) Quiet and prayer

Jesus helped his friends and those he met to find stepping stones so that they might understand a bit more about his work, who he was, his place in history and the Kingdom he talked about so often. This understanding is at the heart of these four sessions
